- Council Direction/Comments

# 2020 Budget Challenges

1. Changes in maintenance policy necessitated a substantial increase in these budgets including gravel allocations. \$60,166

2. Sanding/Salting Budget: We have been overbudget in the past few years therefore in 2020 we have increased this budget by \$79,221

3. Changes in gravel allocation to 3" created the necessity to revamp the entire roads budget and 10 year forecast.

# 2020 Budget Challenges cont'd

4. Due to gravel challenges in 2019 several 2019 projects needed to be brought forward to 2020 and the reduction of gravel to 3" necessitated that each project be repriced which again created a large amount of work to determine the gravel roads 2020 budget as well as the 10 year forecast.

5. There are several 2019 Parks & Recreation projects that were moved to 2020.

# 2020 Budget Challenges cont'd

6. Both Community Centre's and the Parks have a large capital requirement.

7. Increase in full time labour for 5 new full time employees which also increased the benefit and deduction budget.

8. Lowered staff labour for LTD, Deputy Clerk Position and C.A.O position

# 2020 Budget Challenges con'td

9. Due to some shifting of items on the 25 year forecast additional allocations have been made to the roads capital (\$2,990,000) and to the balance of assets not on 25 year forecast (\$650,000). I've extended the allocations to 2039. This did not affect the reserve allocation to the Capital Project/Purchases Reserve therefore did not affect the levy requirement. This is a great budgeting tool to plan for the replacement and improvement of all the Townships assets in the future.

# 2020 Gravel Road Projects

# Gravel Pit – Licensing

Over the next 7 years the Township will be applying for licensing to crush and extract gravel from the County Rd38 gravel pit.

Rough estimate: \$250,000

In an effort to address this future expense part of the 2020 gravel budget includes a licensing surcharge of 0.85 cents per tonne. This is based on a ten year time frame and the tonnes that will be used in the 2020 budget. This surcharge will be transferred to a licensing reserve – 2020 – \$32,700

# Gravel Pit – Purchase

In order to prepare financially for the pit purchase part of the 2020 gravel budget includes a purchase surcharge of \$1.84 per tonne. This is based on 30,000 tonne per year for 20 years using an annual loan payment example of \$115,200. This purchase surcharge will be transferred to a pit purchase reserve – 2020 – \$70,786

Total	\$64,296

Funded with Funding \$32,500, Reserves  
\$11,546, Taxes \$20,250

# Budgeted Levy Requirement

2019 Budgeted Requirement from Tax Levy:	\$5,014,779
2020 Estimated Requirement from Tax Levy:	<u>\$5,486,499</u>
Increase for 2020:	\$ 471,720

This is a required levy percent increase of 9.41% which equals a 3.76% residential tax rate increase. The municipal tax levy increase is the amount of money that needs to be collected from property taxes and does not reflect the change to property tax rates.

# Increased Residential Household Cost for Municipal Taxes

On each \$100,000 of assessment this would equal a \$12.97 yearly increase over 2019.

On a home assessed at \$250,000 the residential tax increase would be \$32.43.

# 2020 Budget Challenges

Just to reiterate the challenges with the 2020 budget process:

1. Changes in the road maintenance policy necessitated a substantial increase in these budgets: Approximate Increase \$50,000
2. Sanding/Salting Budget: We have been overbudget in the past few years therefore in 2020 we have increased this budget by \$100,000
3. Changes in gravel allocation to 3" created the necessity to revamp the entire roads budget and 10 year forecast.
4. Increase in full time labour which also increased the benefit and deduction budget.

# 2020 Budget Challenges

5. Due to gravel challenges in 2019 several 2019 projects needed to be brought forward to 2020 and the reduction of gravel to 3” necessitated that each project be repriced which again created a large amount of work to determine the gravel roads 2020 budget as well as the 10 year forecast.
6. There were several 2019 Parks & Recreation projects that are moved to 2020.
7. Both Community Centre’s and the Parks have a large capital requirement.
8. With the exception of the Capital Projects/Purchases reserve, the proposed budget is not addressing the depleting reserves.

# 2020 Budget Challenges

- ▶ All of the above challenges except the depleting reserves were addressed in the 2020 budget. With the proposed increase in the tax levy the Township is able to complete a huge amount of roads projects, address necessary capital work in the Parks & Recreation department, encompass the increase in labour and benefit costs, and increase the sanding/salting and maintenance budgets.

# Council Comments/Discussion

Motion to Direct Staff to prepare the 2020 Tax By-law.
