

**Synopsis of Report:** A volunteer has offered to organize and run an event for National Film Day.

**Overview:** The National Film Day organization is offering free film screenings at your location on this day

**Conclusion:** Offering a film screening has been done here at the library in the past with various levels of attendance. The films for this day are part of a national event and our volunteer has extensive experience with the re-frame festival and those that are interested in this type of event.

**Recommendation:**

That our volunteer, Mary Mattos, run a film screening for National Film Day with the support of other volunteers and that the library support this event through promotion in our newsletter and with snacks provided through our programming budget.

**Financial Impact:** Programming budget is in place and food items could be sold as a fundraiser.

**Impact to Library Staff:** Staff will provide technical support if volunteers are not available.

**Impact to Library Services:** Programs such as this reach out to different user groups. Regular library services would not be impacted any differently than when we have our speaker series.

**Strategic Plan Applicability:**

Strategic Direction #3 Service Delivery –

Goal 3 PROGRAMMING

The library will offer programs as part of library service.

Action 1. Offer programs to ensure a wide variety of interests and ages (Note - to start with one new program)
