Firefighter Job Description

General Role Descriptions

Performs fire protection duties to meet the Council approved level of service or other related work as assigned

Distinguishing Features of the Rank

The role of Firefighter is a physically demanding position involving hazardous environments. A Firefighter must successfully perform the duties required to meet the level of service in a safe and effective manner. A Firefighter is generally under the supervision of an Officer, but may need to make decisions and work without supervision until more senior in rank personnel arrive.

Examples of Work

- 1) The Firefighter will respond to alarms as required
- 2) The Firefighter will forcibly enter burning structures as required
- 3) The Firefighter will lay and connect hoses & other appliances, turn water on and off
- 4) The Firefighter will use and maintain personal protective equipment, including protective breathing apparatus
- 5) The Firefighter will provide Emergency Medical Care
- 6) The Firefighter will perform standard salvage and overhaul operations
- 7) The Firefighter will operate and direct fire hoses, nozzles, adapters and appliances
- 8) The Firefighter will operate rescue equipment
