

Notice of Construction County of Peterborough Surface Treatment of County Road No. 4

Please be advised of the surface treatment of County Road No. 4 (locally known as Warsaw Road) in the Township of Douro-Dummer, County of Peterborough from County Road No. 6 (locally known as Stoney Lake Road) south to the settlement area of Warsaw (approximately 4.3 km long).

The works will commence on Tuesday May 23rd, 2017. It is anticipated that these works are to be completed by mid June, 2017. Please note that the timelines are approximate and will vary dependent upon weather and other factors.

The project involves the pulverization of the existing road, the restoration of the cross-fall with granular "A" and the application of a double surface treatment. Care will be taken to best fit the existing grade of the driveways to the new road profile.

During the daily construction, one lane will be open at all times with both lanes open prior to closing down operations each day. Water or calcium chloride, as may be required, will be used to reduce dust nuisance resulting from this operation. It is noted that it is in the best interest of the Contractor to cover the gravel with surface treatment as soon as possible in order to avoid continual grading and watering operations.

We apologize for any inconvenience during construction and thank you for your patience.
