

The County of Peterborough has retained HP Engineering to complete preliminary and detailed design and to undertake the Municipal Class Environmental Assessment (MCEA) process for the rehabilitation of the Douglas Bridge. The Douglas Bridge is located on Rock Road approximately 0.8 km east of County Road 38 in the Township of Douro-Dummer as shown on the key plan.

The project is being initiated as a Schedule 'A+' undertaking in accordance with the MCEA, which applies to municipal infrastructure projects including roads, bridges, water, and wastewater projects. The study will include a review of structure rehabilitation alternatives and associated potential impacts on the study area environment.

Public and agency consultation is an important component of the Environmental Assessment process. Public and agency input are invited for incorporation into the planning and design of the project. A Public Information Centre (PIC) will be held on August 22, 2017 from 5:00 pm to 7:00 pm at the Township of Douro-Dummer Municipal Office, 849 South Street, Warsaw, Ontario, to provide additional information, answer questions regarding the project, identify the nature of the work and solicit feedback and comments. The PIC will consist of a drop-in type format with displays showing alternative solutions. Staff from the County and Project Lead Consultant will be on hand to answer any questions. Subject to comments received and the receipt of necessary approvals, the County of Peterborough intends to proceed with the planning, design, and construction of this project.

If you are interested in providing comments or receiving further information on this project, please contact the following individuals:

**Mr. Tyler Clemens**

Consultant Project Manager  
HP Engineering
