

July 4<sup>th</sup>, 2017

To whom it may concern,

Cruickshank Construction Limited has been contracted by the Ministry of Transportation of Ontario for the rehabilitation of Sawyer's Creek Bridge on Hwy 28. This contract consists of Concrete Patch Repairs. The bridge is located 1.3kms south of Regional Road 33 which is just South of Lakefield on Highway 28. This project is expected to begin within 30 days of this notification and be complete by November 2017. During construction periods 1 lane of traffic will be maintained by means of Traffic Signal Lights with a direct power source. All efforts will be made in order to accommodate all Emergency services through the Construction Zone.

Please note that if there are any variations to what has been noted it will be communicated to affected parties.

If there are any questions or concerns, please feel free to contact me.

Regards,

Evan Bancroft
