

Clear is here!

How can I set out my garbage for collection?

Garbage can be placed in garbage cans either loose or in a clear bag.

Garbage can be placed in clear bags. A single grocery sized privacy bag can be placed in the clear bag to conceal private items.

Not creating much garbage in a week? Place garbage in a single, grocery sized bag for collection. Keep it separated from recycling bins to avoid confusion between garbage and film recycling collection.

Please ensure that each garbage bag or garbage can weighs less than 18.1 kg (40 lbs) and contains a maximum of 0.06 cubic meters (2 cubic feet) of waste. Divert recycling, hazardous waste, and compost into the appropriate stream. These requirements apply to both curbside pick-up and Hall's Glen Transfer Station drop-off.

Thank you for participating in the Clear Bag Program!

We are here to help you through the transition. Do you have questions?
