Addendum Two

**This addendum shall form part of the Request for Proposal document.
Please note the following addendum recommendations:**

A. The following is additional information for the new Central Public Works Depot/Fire Station:

- Energy conservation features does not mean LEED certification but certain LEED standards that lead to energy conservation will be considered as part of the project.
- Consultants that will need to be carried at this point in the project will be structural, mechanical, electrical, cost and civil.

* Please check our website for more information on our municipality at www.dourodummer.on.ca
